

ÖNSÖZ

- **Selçuk Üniversitesi Mühendislik-Mimarlık Fakültesi Jeoloji Mühendisliği Bölümü 2. Sınıf Bahar Yarıyılında Okutulan Tektonik II Dersi kapsamında hazırlanan bu sunumlar 32 bölüm şeklinde hazırlanmıştır.**
- Sunumlar Tektonik II Ders Notlarında (Eren, 1998) yer alan konulara paralel olarak hazırlanmış ve yeni bölümler eklenmiştir.
- **Sunumların hazırlanmasının amacı, Yapısal jeolojinin öğrencilere daha kolay ve anlaşılır bir biçimde verilmesi, dersin pratiğinin artırılması, daha çok görsel malzemeler kullanarak, dersin kalıcılığının sağlanması ve deformasyonun kayalarda oluşturduğu olağanüstü yapılara (her ölçekte) dikkat çekilmesidir.**

» Devam ediyor

- **Ayrıca, Dünyanın değişik kesimlerine ait fotoğraflar, tektonik yapıların (özellikle mesoskopik ölçekte) arazide olduğu gibi analiz edilmesini ve yorumlanmasını sağlayacaktır.**
- Sunumlar hazırlanırken, Yapısal jeoloji kitaplarının yanı sıra, Dünyanın değişik Üniversitelerinde ve kuruluşlarında çalışan Yapısal jeologların internet ortamında hazırladığı dökümanlardan (sunumlar, animasyonlar, şekiller, resimler vb. gibi) çok geniş ölçüde yararlanılmış ve bunlara ait referanslar ve Web siteleri adresleri aşağıda verilmiştir.
- **Bunların yanı sıra Bir jeoloji cenneti olan Türkiye'den de (Özellikle Bozdağlar Masifi-Konya, Sultandağları Masifi, Niğde Masifi) derlenen arazi fotoğrafları geniş ölçüde kullanılmaya çalışılmıştır.**

–

Devam ediyor

- **Bir deneme niteliğinde olan mevcut sunumlar, ilerde özellikle Türkiye'den derlenecek örneklerle daha da zenginleştirilecek ve internet ortamında öğrencilere ve yapısal jeologlara sunulacaktır.**

Yrd.Doç.Dr.Yaşar EREN
Selçuk üniversitesi
Müh.-Mim. Fakültesi
Jeoloji Mühendisliği Bölümü
